

Brand Playbook

One source, many possibilities.

At Shakti Group, we build and scale ambitious businesses across diverse sectors. Running a multi-industry ecosystem is complex enough — every venture should draw strength from the Group without losing its own identity.

In this playbook, we'll explain how to give things the Shakti touch. Use this to understand our visual identity and personality, so everything we and our ventures create feels connected and consistent.

The Shakti Ecosystem

About

Who we are, and what we stand for.

What is Shakti Group?

Shakti Group is a multi-industry ecosystem headquartered in Vadodara, India — building and scaling ventures across technology, agriculture, sports and more.

Every business under the Group draws from the same source of strength and expertise, while operating with its own name and identity.

Power ambitious ventures to operate with lasting strength.

We're the shared foundation that lets every venture build with confidence.

Tailored expertise for each sector, backed by one ecosystem.

Rooted in India, focused on impact, built for the world.

Rooted Strength

A heritage-driven, trustworthy foundation. We build on trust, quality and integrity across every vertical.

Convergent Energy

Independent businesses, powered by one shared ecosystem — each drawing from the same source of strength.

Purposeful Growth

Expansion guided by craftsmanship and long-term value, not speed for its own sake.

Quiet Confidence

Understated and substance-first. We let the work speak, rather than the noise.

Logo & Symbol

Variations, do's and don'ts.

The primary visual of the Shakti identity —
logomark and wordmark, always locked together.

Always use with adequate white space, as
indicated by the guide.

For compact use cases, like social avatars, favicons, or wherever space is limited.

Provide sufficient white space around the mark.

Always shown in an app-icon shape.

Logo & Symbol

General guidelines

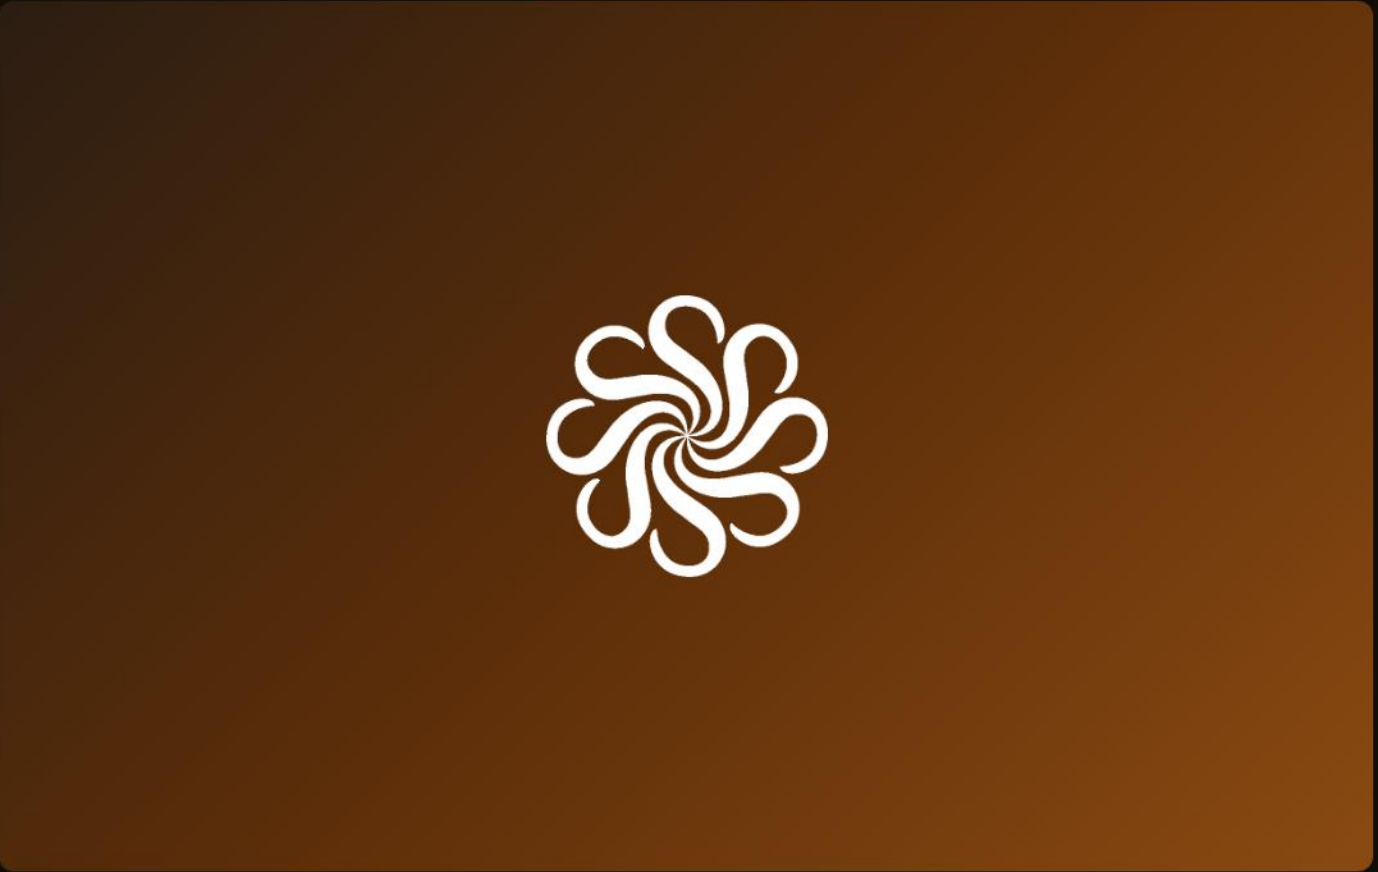

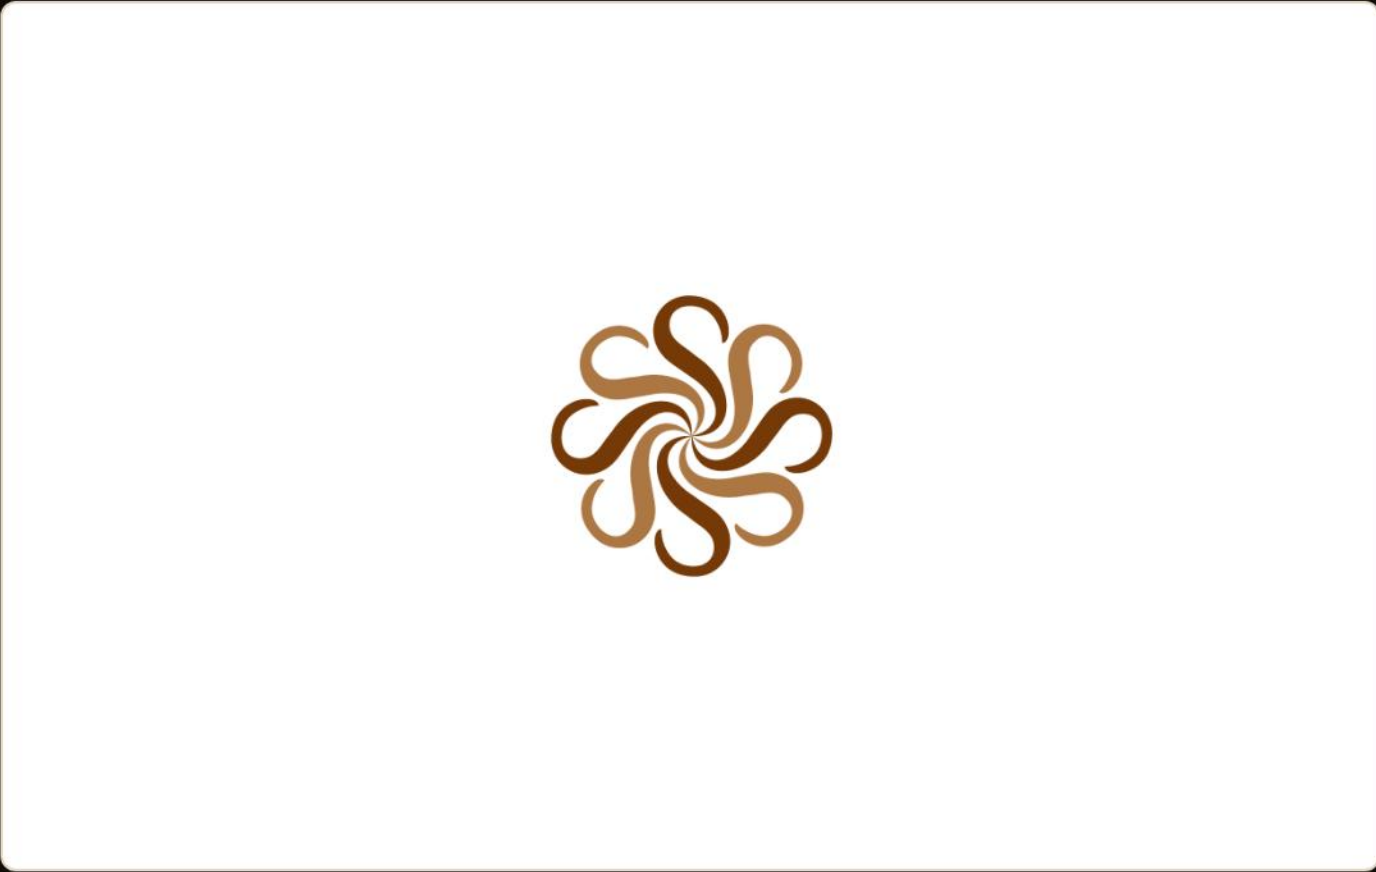

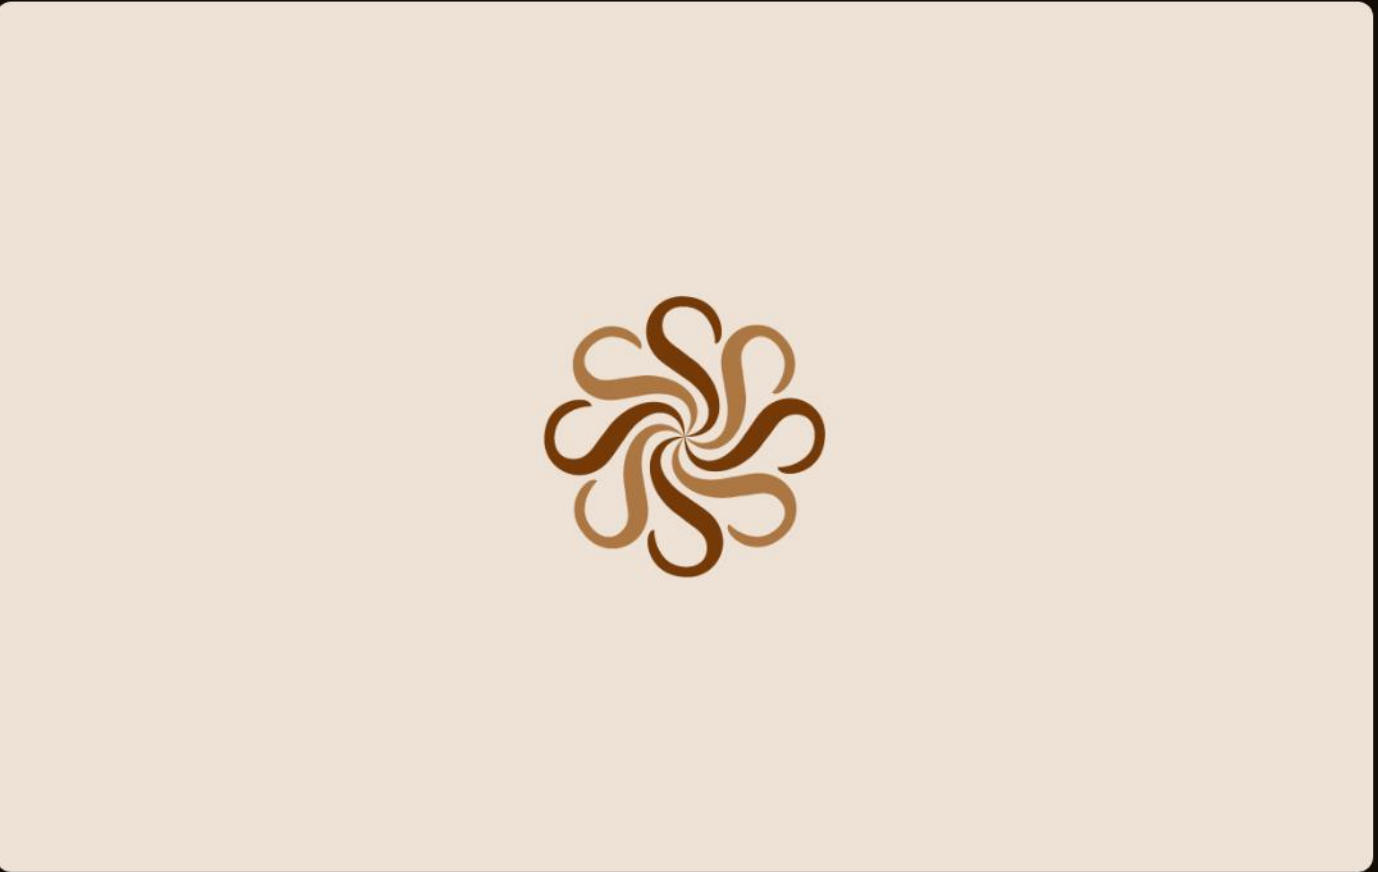

Our logo is our identity and should be treated with the utmost respect.

It can be used in Shakti Espresso, Charcoal, or White.

On a light background, use Espresso or Charcoal.
On a dark or photographic background, use the logo in white.

The don'ts

Don't angle it. Don't add a gradient. Don't stretch it. Don't use secondary-palette colors. Don't put a stroke around it.

Colors

How we use color to denote our brand and signpost information.

Colors

Core brand colors

Our colors reflect the warmth, craftsmanship, and rooted strength of Shakti Group, while staying premium and understated.

Espresso

#753A07

Copper

#AC7743

White

#FDFBF8

Ivory Cream

#F1E8DE

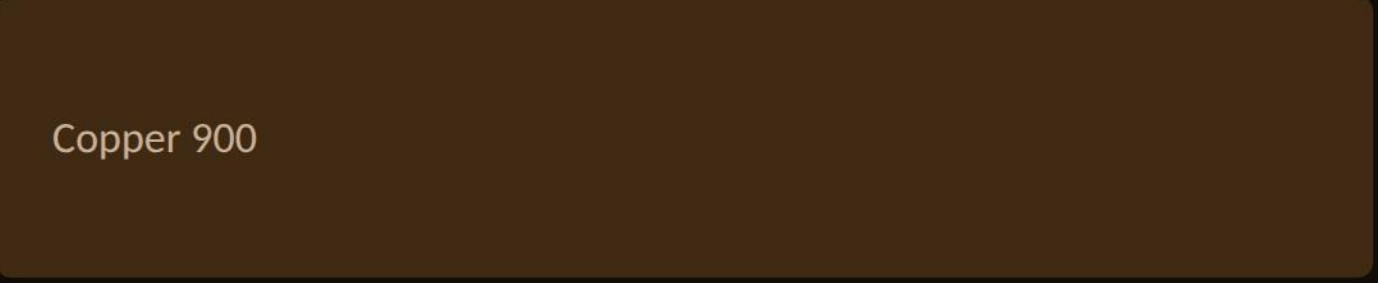

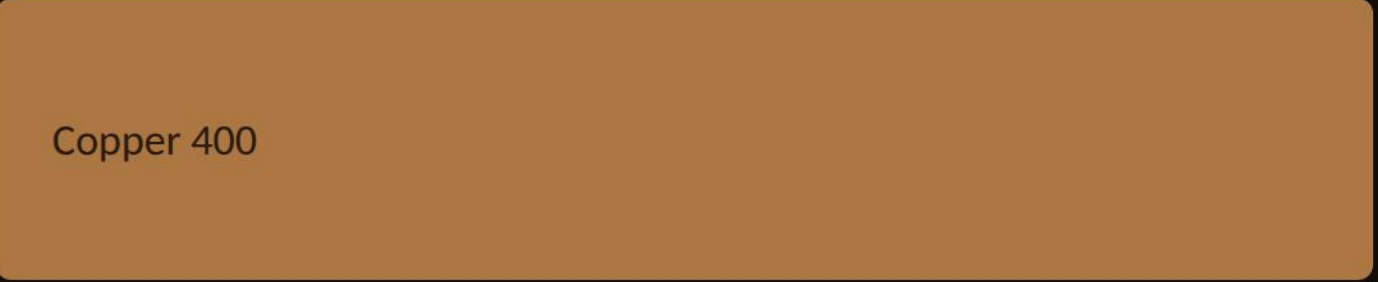

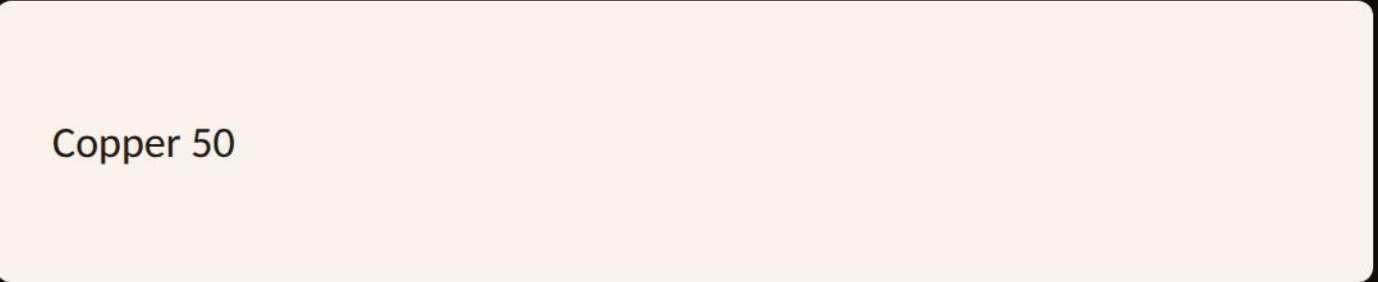

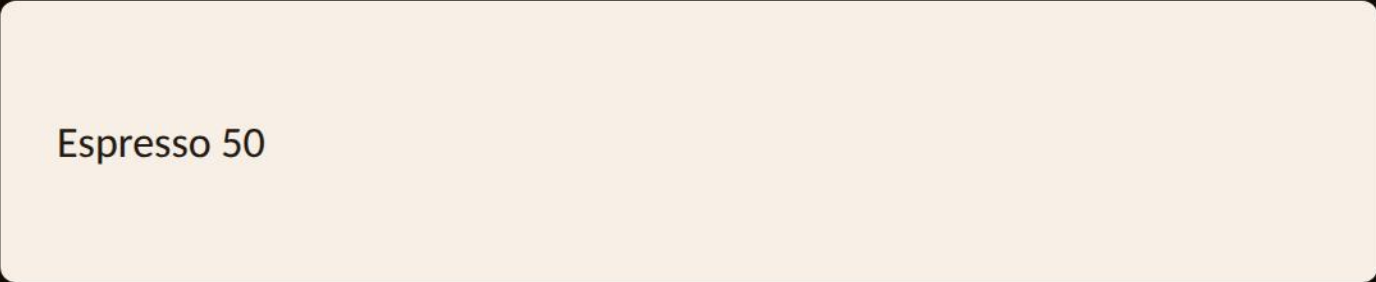

Charcoal

#241A12

Colors

Our colors reflect the warmth, craftsmanship, and rooted strength of Shakti Group, while staying premium and understated.

Shades

Colors

Secondary palette is used for semantic meaning — success, warning, error and info states across products and reports.

Secondary palette

Terracotta 100	Amber 100	Olive 100	Slate 100	Plum 100
Terracotta 400	Amber 400	Olive 400	Slate 400	Plum 400
Terracotta 700	Amber 700	Olive 700	Slate 700	Plum 700
Terracotta 900	Amber 900	Olive 900	Slate 900	Plum 900

Colors

We use a lot of negative space so layouts feel calm and information is easy to find. Copper and Gold are used sparingly to draw attention.

Proportions

Negative space

Should take up the majority of the layout

Ivory Cream

Frame content and break up sections

Charcoal

Typography and icons

Copper / Gold

Buttons and highlights

Typography

The type system that makes our communication feel considered.

Our primary typeface is Georgia — a refined serif for headlines and title treatments.

It echoes the wordmark's flared terminals while staying highly legible at large sizes.

Georgia

One source, many possibilities.

Regular

abcdefghijklmnopqrstu
vwxyz
ABCDEFGHIJKLMN OPQ
RSTUVWXYZ
1234567890!?\$%^&*

Bold

**abcdefghijklmnopqrstu
vwxyz
ABCDEFGHIJKLMN OPQ
RSTUVWXYZ
1234567890!?\$%^&***

Calibri (or Montserrat) is used as our secondary typeface — for body copy, captions, tables and interface text.

Clean, neutral and highly legible at small sizes.

Calibri

ONE SOURCE, MANY POSSIBILITIES.

Regular

abcdefghijklmn opqrstuvwxyz
ABCDEFGHIJKLMN OPQRSTUVWXYZ
1234567890!@#\$%^&*

Bold

abcdefghijklmn opqrstuvwxyz
ABCDEFGHIJKLMN OPQRSTUVWXYZ
1234567890!@#\$%^&*

Whenever we write and design with copy, follow these hierarchy principles.

Headline: Georgia Bold

Built for the long term.

Subheading: Georgia Regular

From incubation to industry — every venture carries the Shakti standard of quality and care.

Body copy: Calibri Regular

Running a multi-industry ecosystem is hard enough. Having a shared identity and set of standards that ties every venture together should be simple and consistent. That's what this playbook is for.

Label: Calibri Bold (uppercase, tracked)

Visual Devices

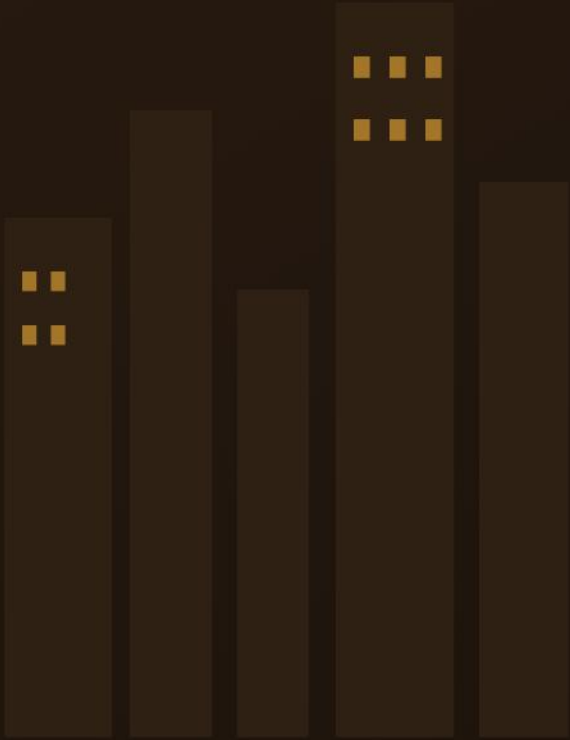

How we add craft to our brand.

Visual Devices

We use flat, duotone illustration — skylines, networks, and abstract patterns in brand colors — rather than photography, to keep every application consistent.

Illustration style

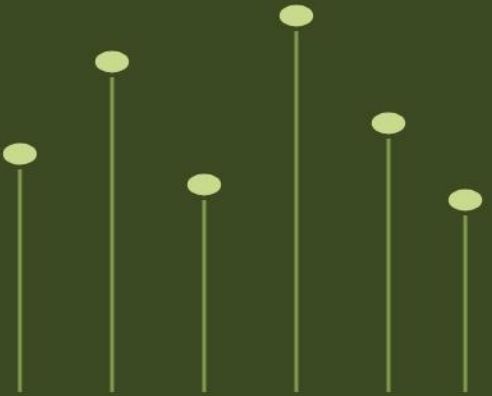

Skyline motif

Network motif

Growth motif

Visual Devices

A quick reference for how the system looks in the field — business cards, letterhead, brochures and social tiles.

Applications

Business Card

Ivory Cream stock, Espresso logo, thin Gold rule.

Social Tile

Charcoal background, reversed white logo, Gold accent.

Brochure

Cream + white pages, Copper dividers, Sand tint blocks.

Letterhead

White page, logomark top-left, Espresso footer rule.

Thank you.
