Ink on the accent. Never white.

Signal is a light green. White type on it fails at 2.03:1. Ink on the same green reaches 9.29:1 — the surface is identical, only the label changes.

PASS AA / AAA

SIGNAL IS A SURFACE ON LIGHT GROUNDS, AND A COLOUR OF TYPE ONLY ON SLATE. GREEN WORDS ON CANVAS MEASURE 1.98:1.

A section owns a ground, or does not touch it.

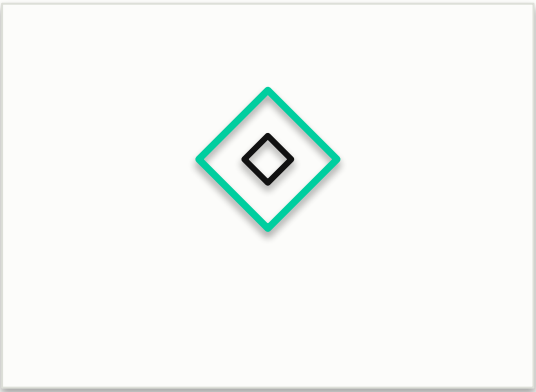

Accent as garnish — a green underline here, a green icon there — is the failure this system prevents. Measured across the company deck, no two adjacent sections share a ground.

WHAT WE DO

Two signatures that carry the voice.

01 — THE TWO-TONE HEADLINE: EMPHASIS RIDES ON COLOUR, INSIDE ONE SENTENCE

Every great company begins with an idea. Very few survive what comes next.

What changes when you build with us.

Bring us the idea. We'll help you build the company.

MAXIMUM ONE SPLIT PER HEADLINE. THE EMPHASIS MOVES TO WHEREVER THE CLAIM ACTUALLY LIVES.

02 — THE TERMINAL FULL STOP TURNS A LABEL INTO A CLAIM

Philosophy.

COMPONENTS

Colour carries meaning, permanently.

BUTTONS — SIGNAL MEANS COMMIT, INK MEANS PROCEED. NEVER SWAPPED FOR VARIETY.

IMAGERY

Real photography. Abstract atmosphere.

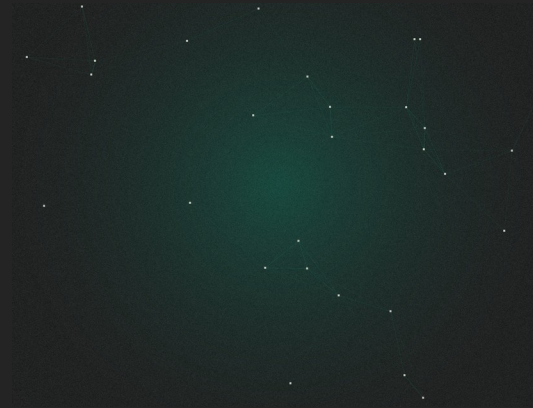

Founder Focus

One person at work, natural light, mid-thought. Never posed.

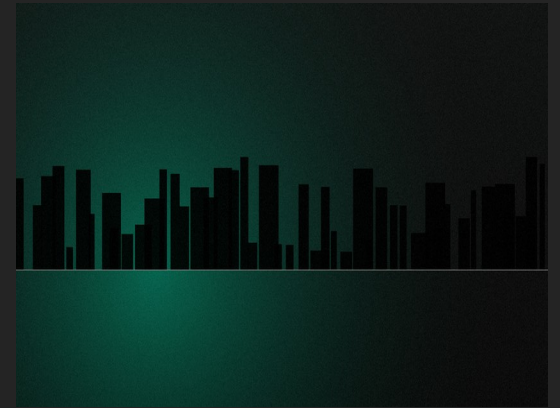

Collaboration

Three or four people mid-discussion around real work.

Innovation Spaces

Rooms and systems where work happens. No handshakes.

Global Vision

Horizon or skyline at dusk. Wide crop, no people.

These four plates are procedural stand-ins, generated to hold the layout. Nothing ships externally until commissioned photography replaces them.

- Signal as type on Canvas or Paper — 1.98:1
- A second brand hue, or any gradient
- Accent as garnish or stray icons
- Green-tinted photography
- Swapping button colours for variety

- Applying this palette to Shakti Group work

OPEN

What this playbook still needs.

01	Traction metrics	The deck states structural facts only. Ventures incubated, capital enabled and countries reached need verification before use.
02	Production logo	The mark here is a working redraw. Master files need recolouring to this palette and SVG export.
03	Photography	All four image families are stand-ins. Commission before any external use.
04	Group co-signing	How this mark sits beside the Shakti Group mark on joint material is undecided.
05	Font licensing	Confirm the group's Neue Montreal licence covers web embedding for this domain.
