

THE SPARK OF INNOVATION

Every transformative venture begins with a singular spark of ambition and technical vision.

Shakti AI TechLabs was founded in Vadodara to empower the next generation of global tech leaders by bridging the gap between local talent and global markets.

- An ecosystem of operators, not just an accelerator.
- Bridging the gap between local talent and global markets.
- A mission-driven, founder-first approach to venture building.

The Reality of the Growth Gap

Ambition alone is insufficient; most startups fail to close the "execution gap."

The Stalling Point: Transition from Prototype to Global Product

Key Challenges Founders Face:

INFRASTRUCTURE

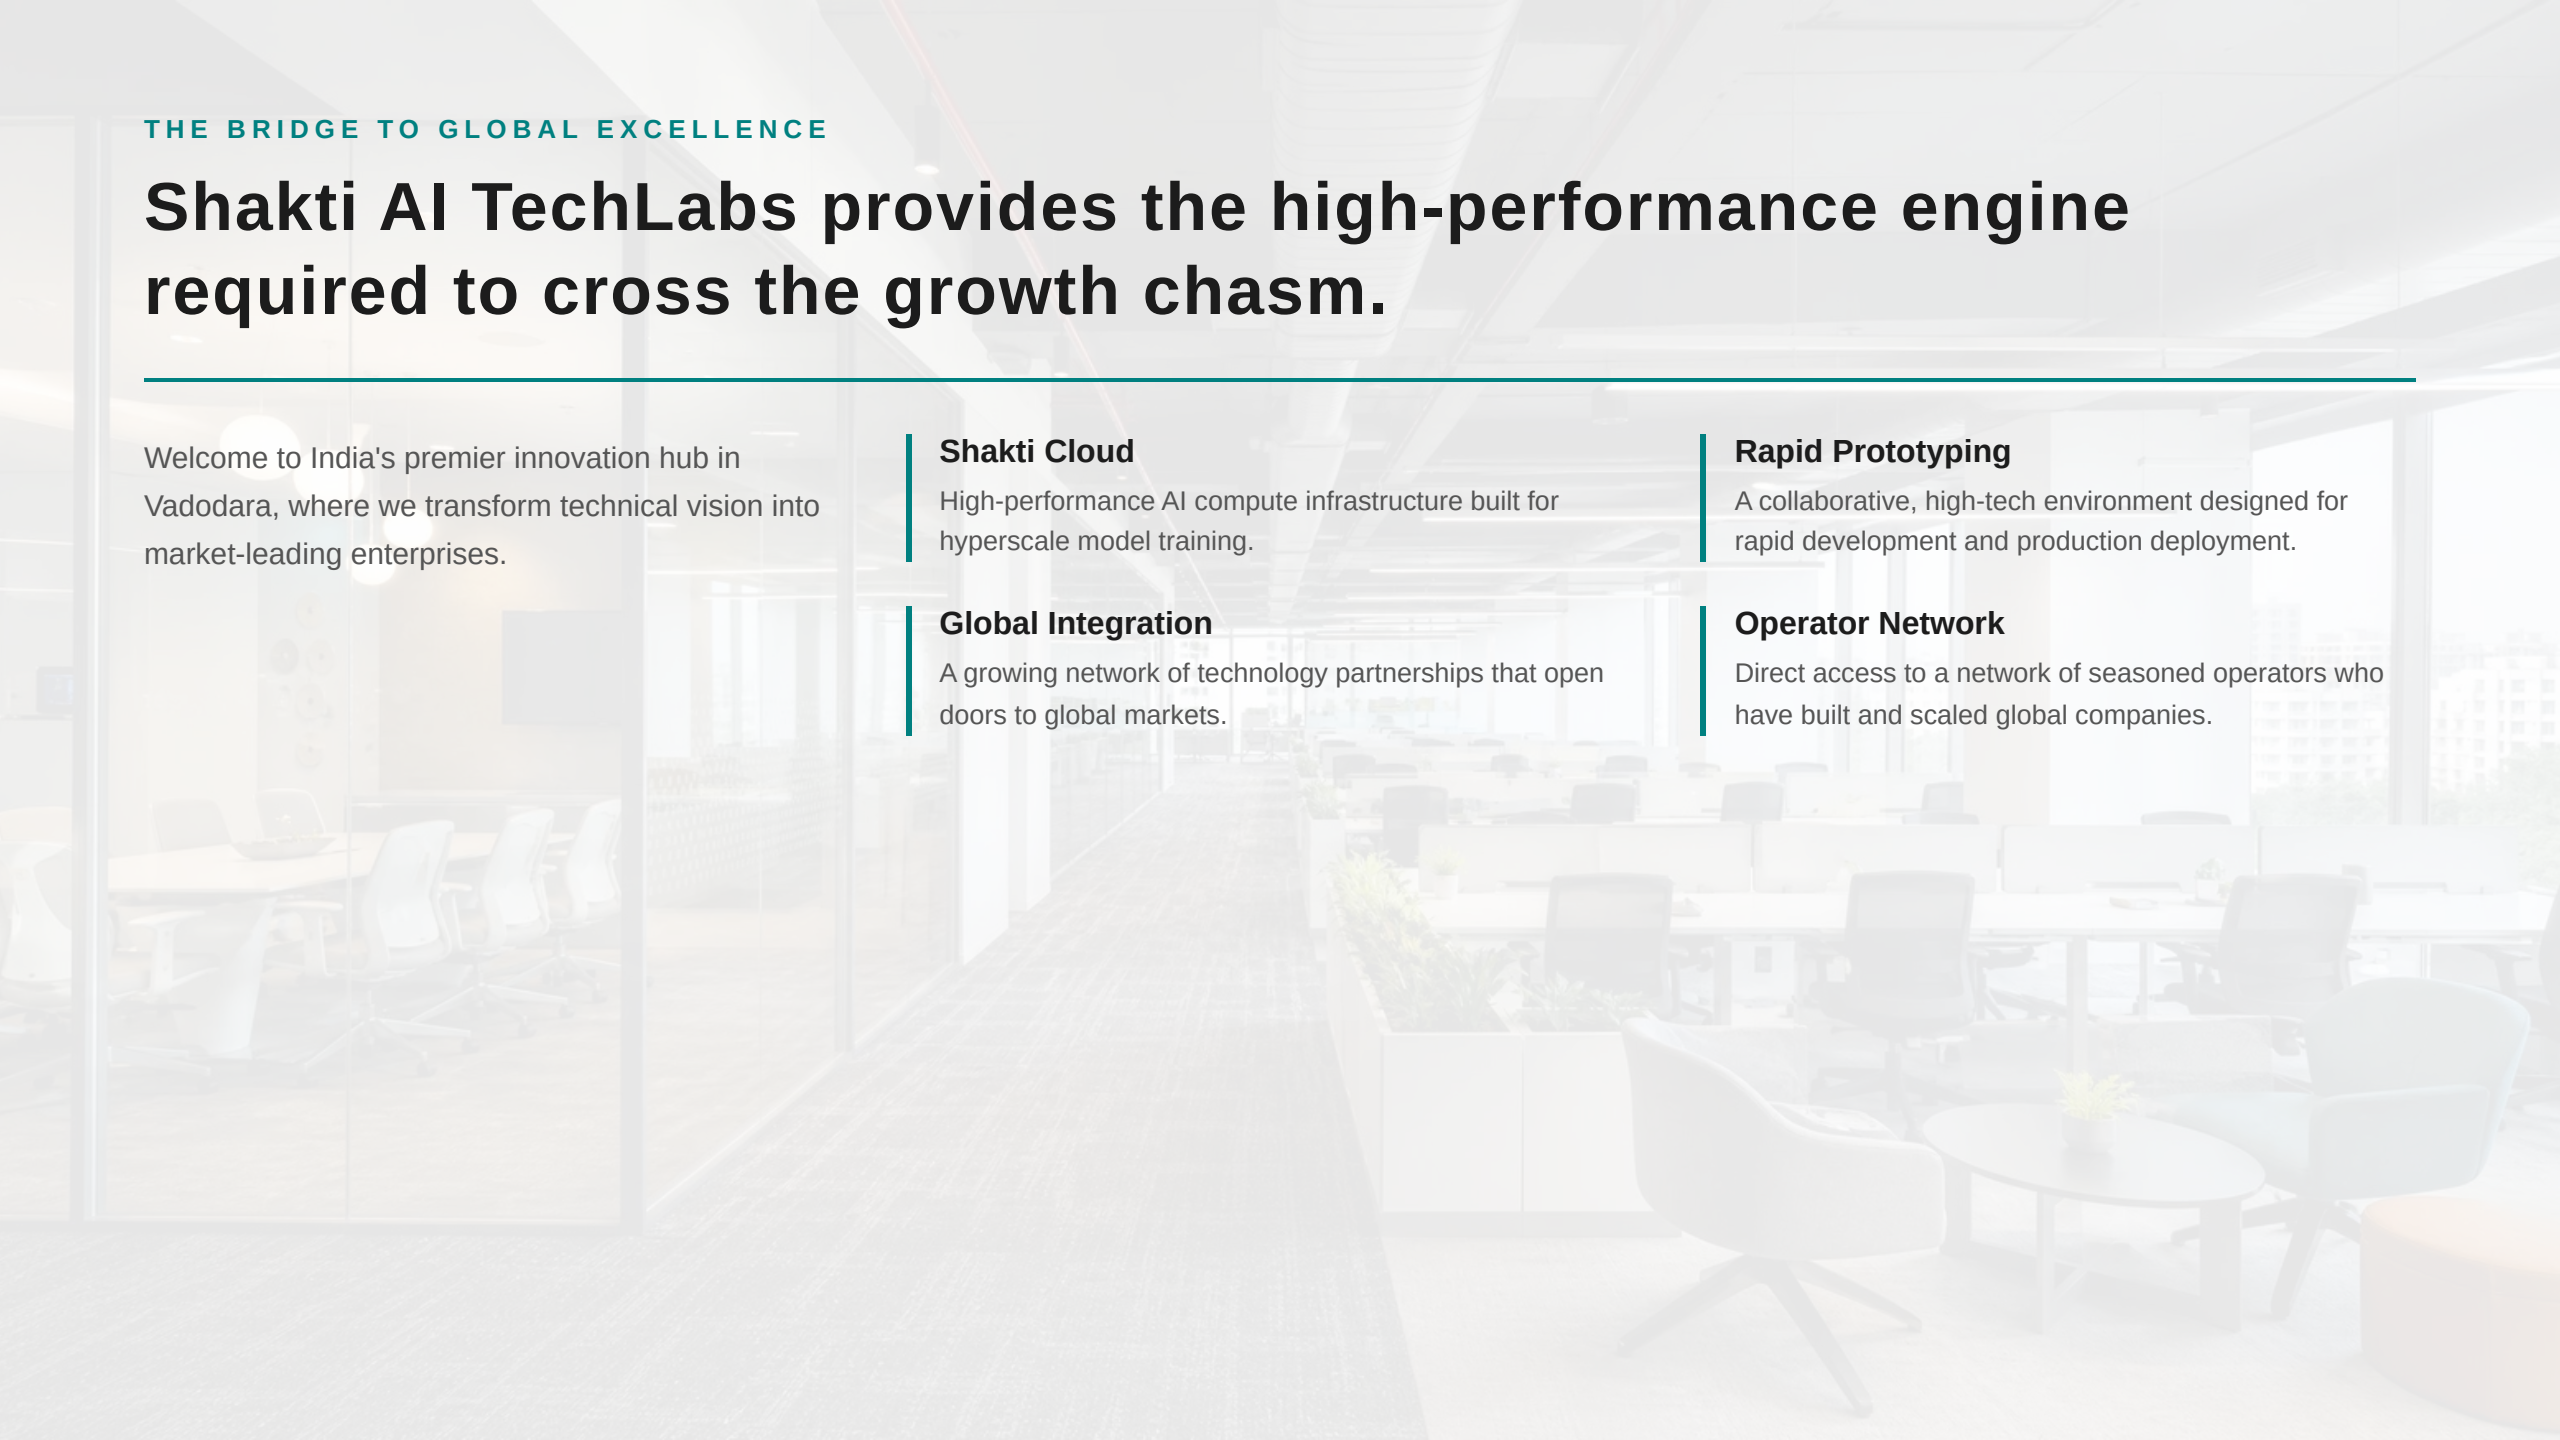

Lack of specialized AI/GPU infrastructure for scaling.

MENTORSHIP

Difficulty in finding experienced operator-led guidance.

ECOSYSTEM

Fragmentation in cross-industry ecosystem support.

THE BRIDGE TO GLOBAL EXCELLENCE

Shakti AI TechLabs provides the high-performance engine required to cross the growth chasm.

Welcome to India's premier innovation hub in Vadodara, where we transform technical vision into market-leading enterprises.

Shakti Cloud

High-performance AI compute infrastructure built for hyperscale model training.

Global Integration

A growing network of technology partnerships that open doors to global markets.

Rapid Prototyping

A collaborative, high-tech environment designed for rapid development and production deployment.

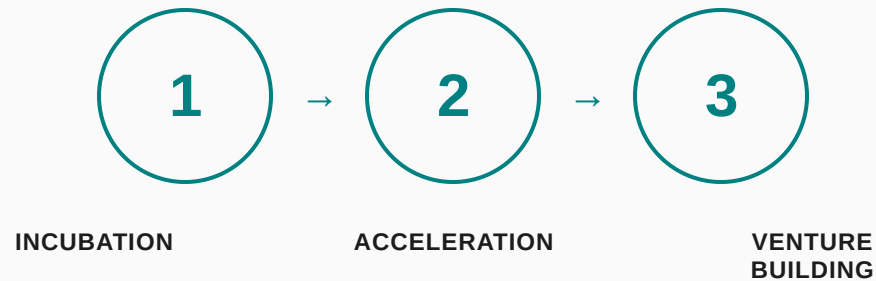

Operator Network

Direct access to a network of seasoned operators who have built and scaled global companies.

A Proven Path for Venture Success

We follow a rigorous 3-stage journey to de-risk ventures and accelerate market entry.

STAGE-LED — THE PATH A VENTURE TRAVELS

01

INCUBATION

Validating technical feasibility and market demand. We focus on building a robust proof-of-concept.

02

ACCELERATION

Refining GTM strategies and building core teams. We accelerate the transition from prototype to a market-ready product.

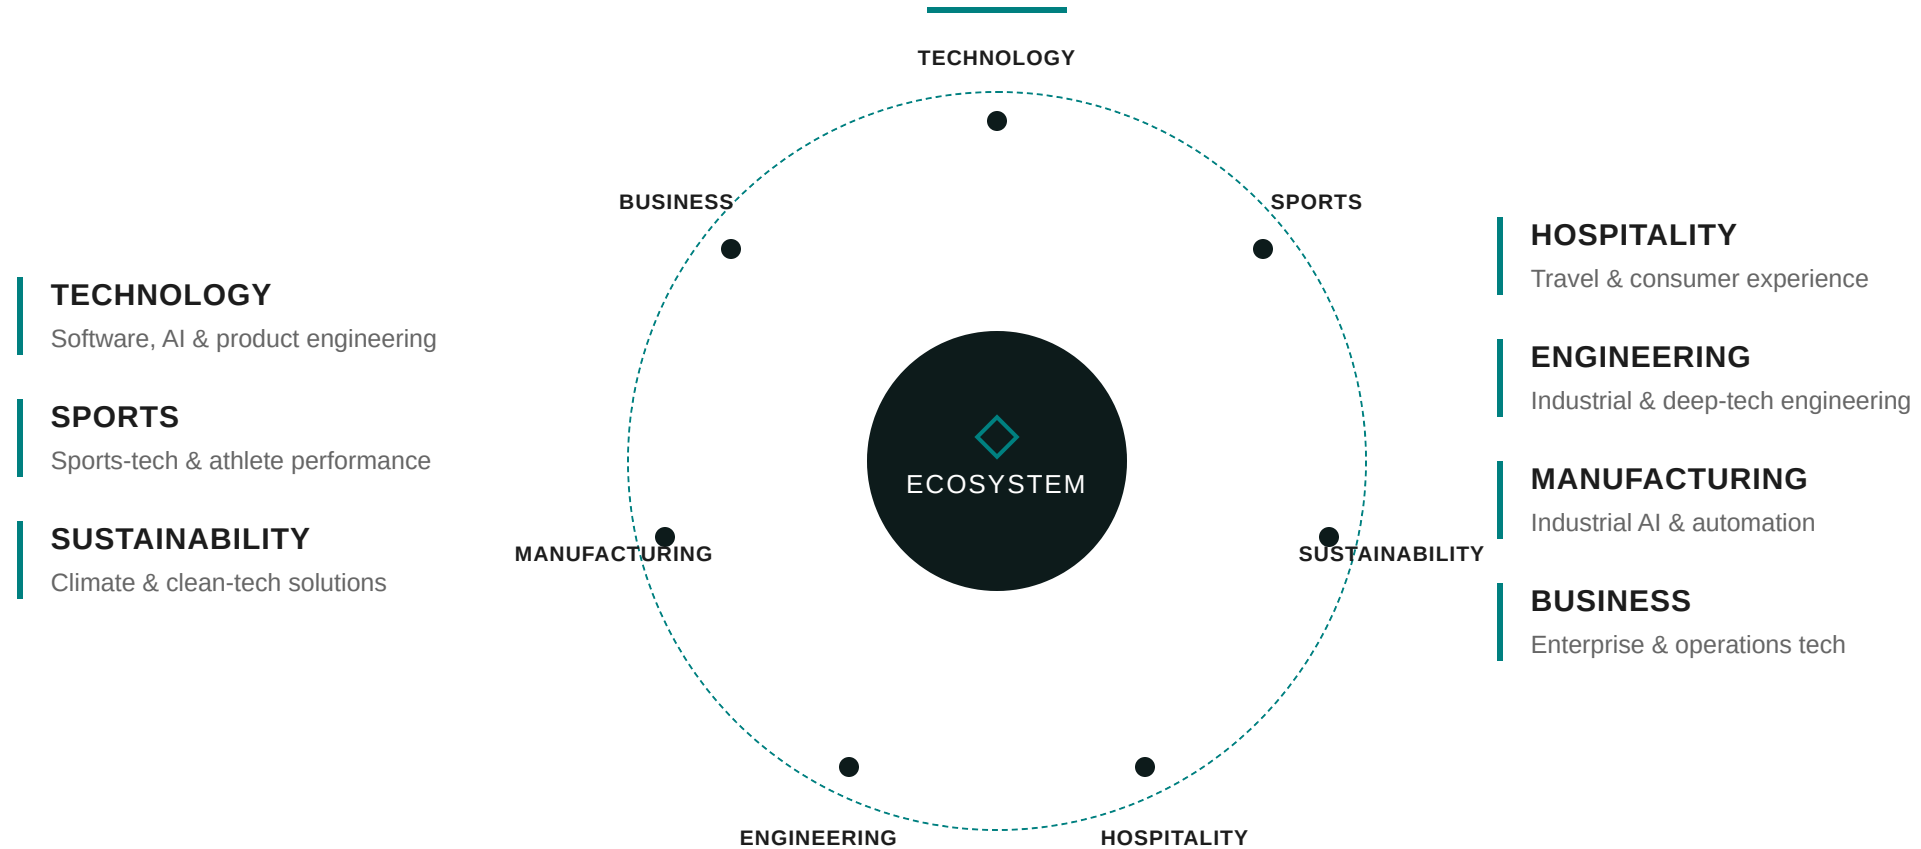

03

VENTURE BUILDING

Scaling operations for global expansion and fundraising. We build sustainable, born-global companies with long-term viability.

The Power of Seven Industries

Our ecosystem spans 7 sectors of real operating experience, on call for every venture we build.

The Operator Advantage

Build with operators who have successfully navigated the path from 0 to 1.

Building Alone

- × Trial and error execution leading to high burn rates.
- × Limited access to specialized AI/GPU infrastructure.
- × Navigating complex global markets without a proven network.

Building With Us

- ✓ Proven playbooks and de-risked venture building models.
- ✓ Direct access to high-performance compute expertise and Shakti Cloud.
- ✓ Global market entry strategies backed by serial entrepreneurs.

Global Horizon & Strategic Reach

We build ventures that are born-global, prepared for international competition.

6

Capabilities

7

Industries

10

Partner Types

1

Ecosystem

STRUCTURAL FIGURES — TRACTION METRICS TO BE ADDED ONCE VERIFIED.

AI-NATIVE INFRASTRUCTURE

High-performance compute built for global-scale model training and inference.

TECHNOLOGY PARTNERSHIPS

A growing network of technology partners that opens doors to global interoperability.

INTERNATIONAL REACH

An operator and partner network built to help ventures compete globally from day one.

Bring us the idea.

We'll help you build the company.
